

Transform Team Collaboration

The Quality Feedback module increases accountability and transparency by encouraging your team to communicate openly on situations that are both good and bad. Managers can then log in and see all open cases waiting to be resolved. By utilizing the Quality Feedback module, you can empower your team as you build stronger relationships within and between departments.

Key Features:

- ✓ Easy access to the module from any Windows desktop or mobile device for stakeholders with system privileges
- ✓ Capture pictures or images when documenting an event
- ✓ Pull reports based on multiple parameters for analysis:
